

iReach Africa: Bringing people out of poverty into prosperity, out of sickness into health, out of darkness into the light, out of disease and death and into life abundant.

Africa meets America

Greetings from Mozambique! Who said board meetings can't be fun? Everything is fun in Africa! Well, maybe "fun" isn't the right word. But, frantic + fascinating + scary + crazy = Fun, in my book. It's been an exciting month with boardmembers and USA staff from iReach Africa visiting our team in Mozambique.

Political unrest continues in Central Mozambique. Soldiers force travelers into convoys and then jump into the vehicle with them to escort them through areas of anticipated rebel activities. It's a bit scary at times. Please pray for peace to reign throughout the nation.

Introducing... TARIRO!

iReachAfrica has just established a partnership with Tariro, a Christian vocational – technical school about a mile from our current base in Mozambique. Tariro means hope. It's a two year discipleship program that also teaches employable skills such as metal work/welding, carpentry, automotive mechanics and agriculture.

We've discovered that together, we can accomplish so much more. When the Body of Christ honors and supports one another nothing is impossible. To check out this amazing ministry go to:

www.tariro.net/

The Gennari Family

The Gennari Family have lived with us for a year. Apart from jumping into many ministry endeavors, they have been studying Portuguese. They are now eager to launch into new territory: the Yao region of the north. There are about two million Yao. They are a tribal people who have a mixture of Islam and indigenous beliefs. The Gennaris will move into a Yao village in January and begin to learn the Yao language and culture. Pray for their provision, protection and success in bringing Christ to this ethnic group.

New Developments to Come!

Our current crèche (pre-school) and kindergarten programs have impacted hundreds of kids. While enjoying the opportunity to launch into education, they also learn through play and social interaction. This happens in a physically and spiritually healthy environment. We're now wanting to expand these programs into a new locality. Soon, we will explore various regions, buy land and then we'll begin to build new classrooms and a play-ground. Then we'll identify and train new teachers. And then the real fun begins: enrolling new wee ones for classes! Apart from providing an excellent start in life with the foundational building blocks of education and social development, these tiny tots encounter the love of God and then take Him home to their families and communities. The overflow has been phenomenal. Pray with us that all the variables come together for this ministry expansion. May many hearts and villages be transformed!

Sincere thanks to you all for praying, supporting and partnering with us as we bring Good News to every realm of society in Mozambique. Our health initiatives, prison ministry and Bible studies are touching many lives (including ours)! Our fruit is your fruit.
